M: My sister is getting married aboard a ship.
F: Wow. That sounds really special.
Q: What is true about the man?
(A) He is going to work on a ship.
(B) His sister owns her own boat.
(C) He's getting married next week.
(D) He's going to an event on a boat.

Part 4: Short Talk Questions

Listen to the following paragraph and answer the questions.

M&M's are candy treats that come in a rainbow of colors. The two *M*'s in the name stand for Mars and Murrie. M&M's were created by Forrest Mars and his business partner Bruce Murrie. In the 1930s, Mars saw soldiers eating chocolates with hard candy shells. The design made them easy to eat and kept them from melting. He loved the idea, and M&M's were born in 1941. Since M&M's aren't likely to make a mess, NASA included them aboard the space shuttle *Columbia* in 1981. To this day, M&M's are still found on the menu on the International Space Station. Colorful and fun, these chocolate snacks bring more to the table than just a sweet taste. (延伸自 11 Unit 2)

- (A) 8. What is the relationship between Forrest Mars and Bruce Murrie?
(A) They were business partners.
(B) They competed against each other.
(C) They were employer and employee.
(D) They were customer and supplier.
- (C) 9. What advantage do M&M's hard candy shells have?
(A) They make the chocolates easy to swallow.
(B) They add more nutrition to the chocolates.
(C) They prevent the chocolate from melting.
(D) They give the chocolates various flavors.
- (D) 10. What is this passage mainly about?
(A) Foods that can be eaten in space.
(B) The latest product of M&M's.
(C) Health benefits of chocolate.
(D) The origin of M&M's.

(7) O. I'm going to get a job in China (101 and 2) 413

M. Can you speak any Chinese?

F. No, it's too hard to learn.

M. Well, it would be a waste of time if before you work there.

F. I agree with you.

M. I hope you will change your mind.
